

Motor Vehicle Legislation Runs Up Printing Bills

Annual Crop of Measures Is Coming Up in About the Usual Fullness and Strength, but Value Is Rather Doubtful.

TWO THAT SAY JUST THE SAME THINGS

A fair sample of the way the money of the people of this State is wasted in useless printing is given by the latest batch of bills on the motor vehicle code, introduced by Senator Christman and Assemblyman Pratt to transfer to the State Commission of Highways the powers and duties of the Secretary of State relating to motor vehicles. The measure introduced by Senator Christman and Assemblyman Pratt to transfer to the State Commission of Highways the powers and duties of the Secretary of State relating to motor vehicles covers twenty-two printed pages, quoting the entire motor vehicle law and making minor changes called for.

Aside from the questionable plan of giving added duties to a commission which barely handles its present work, there is an added lack of merit in the proposition to take the automobile bureau away from a department which has been doing its work for years and years, and to place it in the hands of a new body, the State Commission of Highways, which is to be created by the proposed legislation. The bill might better have been left unprinted. It would cost less.

Secretary of State Hugo made a point in speaking of this bill when he said: "The Highway Department in the construction and maintenance of the roads of the State has undertaken a task quite sufficient in itself for it to handle for some time to come, as evidenced by the widespread criticism of waste and inefficiency in the management of the highway during the past few years, which criticism are familiar to all citizens of the State."

The Highway Department was designed to supervise the construction of a vast system of roads, planned to extend over 80,000 miles and involving so far an expenditure of \$115,000,000. The association of a tax collecting bureau, as suggested by those favoring the plan, is especially inconsistent, because the department is not equipped for such work, nor are its employees adapted to it. Moreover, the police powers of the State are almost entirely scattered, besides the problem of enforcement, will be quickly solved if the proposed State constabulary becomes a fact.

Arguments of economy and expediency are not borne out by the facts as to the expediency of providing the personnel of the Highway Department with employment during the winter.

With Ray Harroun as the moving spirit in the enterprise, the Maxwell will manufacture seven racing cars for the coming season. Harroun will superintend the construction of the cars, and will be permanently connected with the Maxwell Company, in the capacity of chief engineer.

These racing cars will be entered in most of the speedway events of the 1915 season. The cars will be constructed for different classes so that their itineraries will include almost every race scheduled between the coasts. One or two drivers have already been selected to pilot the new Maxwell racers. Negotiations are now being carried on by the Maxwell Company with some of the world's most famous drivers and the coming season will likely see some of these pilots at the wheels of the Maxwell racers.

Louis Chevrolet has been entered in the next Indianapolis 500-mile race at the wheel of a 1,000-pound Comedian car, which is now building at Allentown, Mich. It is a four-cylinder with a bore and stroke of 2 1/4 x 4 inches, respectively, and a total piston displacement of only 103 cubic inches. Its speed is placed at 100 m. p. h., with fuel and oil carrying capacity sufficient for 400 miles so that no stops are expected to be necessary.

Chevrolet has not raced since 1910. The following dates have been tentatively assigned for automobile contests during the coming season:
